**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

1. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 61-72 and 116-120, drawn to an endovascular sleeve, Class 607 subclass 119
  - b. Group II, claim(s) 73-90, drawn to bifurcated stent delivery system Class 604 subclass 164.01
  - c. Group III, Claims 92-115, drawn to method of use, classified in class 128, subclass 898.
2. The above mentioned groups lack unity, unity exists when there is a technical relationship among the claimed inventions involving, and one or more of the same corresponding "special technical features". Special technical feature defines as a contribution which each of the inventions, considered as a whole make over the prior art. U.S Patent No. 6185464 to Bonner et al discusses an arrangement for planting an endocrinal cardiac lead via an endovascular sleeve. Bonner et al shows lack of special technical features in the above-mentioned group. Therefore, the applicant is required to elect one of the above-mentioned groups.

Art Unit: 3763

3. A telephone call was made to Mr. BAUER, on 9-9-02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roz Ghafoorian whose telephone number is 703-305-2336. The examiner can normally be reached on 8:30am-4:30pm.
